FACULTY

REV. WILLIAM SUTTON, A. M., D. D.
PROF. ALMORE BARBEE
MISS MARY J. SUTTON
MISS MAMIE STARKEY
REV....

MRS. LAURA UNDERHILL Matron.

GENERAL STATEMENT

The Eastern N. C. Industrial Academy was founded October 25th, 1901, and chartered January 29th, 1903. It is chartered under the laws of the State of North Carolina and has the right to confer such degrees as other schools of similar character.

The chief object of this institution is, the extension and improvement of industral education, as a means of opening better and wider avenues of employment to colored people, we do not lose sight of the ordinary branches taught in common schools, yet the chief aim is to drill the students in practical workmanship, with this end in view, we need ample apparatus of the most improved designs and material provided for students.

ADMISSION.

Each student for admission is required to bring from a reliable source a certificate of good moral character.

BOARD, LODGING, &c.

Board and Lodging can be furnished at the Dormitories for \$6.00 per month. Exclusive building furnished for girls in charge of a competent matron. Boarders must furnish their own pillows, sheets, quilts, blankets, towels and lights. Students coming without these articles must purchase them on their arrival.

Parents will send all moneys for students expenses directly to Rev. Wm. Sutton, President of the Academy, 10 William Street, New Bern, N. C. Parents will send money to pay for the necessary books, as students will not be allowed to remain in school without books.

Parents desiring information as to their children, will write the President or Matron. No student will be allowed to leave school without first obtaining permission from the President.

CONDUCT.

Students are required to maintain such deportment as becometh ladies and gentlemen, to treat the instructors and officers of the institution with respect; to be punctual in attendance and faithful to their work. Students who are unable to keep up with their classes will be placed in such classes as they can keep up with. Those who conduct themselves in an unbecoming manner or who exercises bad influence over their fellows, will be promptly dismissed from the academy.

INDUSTRIAL EDUCATION.

Industrial Education trains the mind for double purposes. It enlarges the scope of enjoyment; it intensifies its delight and it provides the facilities for satisfying the desire it creates. Industrial education purposes a higher condition for the individual and a better reward for his work. A man must live and to live he must work, and make himself useful in some way to his fellowman. The greater usefulness gets the highest pay. Success is largely the results of qualification. Most persons who are without occupation to-day are strangers to the knowledge of how to do some one thing well.

EVENING CLASSES, &c.

The Evening Classes are intended to bring the opportunities offered by this institution within the reach of those who are unable to attend during the day. The range of study and training is wide, embracing nearly all the courses belonging to the several departments of the day school.

DEPARTMENTS, &c.

The heads of each division of the several departments are competent men and women, who have been trained for the work. The school is divided into six general departments, viz:—Manual Training, Classical, Normal, Preparatory, Theological Department, and a Summer Normal Institute for the special training of Teachers.

We do not for a moment neglect the higher branches of study. In this department the course of instruction includes Sciences and Arts. Lectures will be given from time to time by prominent educators.

Our school is endorsed by the citizens of New Bern, and all Eastern Carolina as well. They have evidenced that fact by furnishing the money to pay for the grounds, putting up the building, and paying of the teachers.

LYCEUM.

The T. H. Lomax Lyceum has been in successful operation since our organization. Its work in the academy and town has resulted in much good.

NEEDS OF THE INSTITUTION.

It is a pleasure to recount the good results of the past, but the most needful thing to do is to prepare for the present and future. This is imperative, if we would make the institution more powerful and useful as a permanent factor in a speedy development of the race.

The following needs of our work are presented for the generous consideration of our friends:

- 1. Two hundred scholarships at \$48.00 each.
- 2. Ten Thousand Dollars to build Shops and Dormitories and equip them.
 - 3. An Endowment Fund of \$50.000.
 - 4. Four Thousand Dollars to purchase a Farm.

CLASSICAL DEPARTMENT.

Candidates for admission to the classical department must be fifteen years of age. Graduates from the normal department of the Eastern N. C. Industrial Academy are admitted without examination. Students from other schools will be required to present their diplomas showing what they have pursued. This institution does not obligate itself however, to accept diplomas or certificates in place of examination, should there be any reason for doubt as to the qualification of a candidate for admission to the freshman class. Each candidate must furnish satisfactory evidence to the professors in the different departments, of his ability to pursue the studies of the class applied for.

GRADUATION AND DEGREES.

Those students who satisfactorily complete the studies of the prescribed course and pass the examinations required of them will receive the degree of A. B.

NORMAL DEPARTMENT.

In this department teachers are prepared and equipped for their work. Graduates from grammar schools are prepared to enter the department. The course covers three years. The instruction given all tend to a systematic training for teachers. There is a constant demand for competent teachers. This department answers for a classic preparatory school.

PREPARATORY DEPARTMENT.

The Grammar School Course is designed to give the pupil a thorough drill in the elementary branches of an English education. Before he is advanced to the higher branches, students cannot master the higher branches who neglect the lower ones.

RULES AND REGULATIONS.

Students are required to comply with every rule:

- 1. Students must keep their rooms in good order, and open to inspection of teachers all the while.
 - 2. To keep strictly the rules relative to study, rest and labor.
 - 3. To put out lights at the hour designated.
 - 4. To rise at first signal.
- 5. To stay on the campus unless permitted to leave by the proper authority.

To render obedience to all lawful requirements of teachers.

Classical Department.

Greek, Latin, Astronomy, English Literature, Logic, and Solid Geometry.

THEOLOGICAL DEPARTMENT

REV. WILLIAM SUTTON, A. M., D. D., President REV. C. D. HAZEL, A. M., D. D., Dean

The work of this department is divided into three courses, a full theological course, an English course, and a correspondence course.

ENGLISH COURSE

The English course includes only the English studies, and is maintained for benefit of those who desire a ministerial training, but who have not attained such degree of scholarship, as would warrant their taking the full course in theology. Applicants must have at least a grammar school education, to be admitted to this course. Those completing this course to the satisfaction of the faculty receive a diploma.

The full theological course includes everything in the English course, with the addition of Greek and Hebrew. Persons completing this course to the satisfaction of the faculty receive the Degree of Bachelor of Divinity.

CORRESPONDENCE COURSE

This course is especially conducted for ministers in the active pastorate, who have not the time to spend at the institution, but who desire a course of systematic theological reading. It covers three terms of six months each; a series of questions will be furnished, covering each subject. Persons desiring a certificate from this course must on completing each year's work, come to the institution to take final examinations with the same classes in the Academy, (unless otherwise arranged). We recommend this course to all who cannot spare the time to attend school. The tuition for each course is \$5.00 in advance and postage.

COURSE OF STUDY

JUNIOR YEAR:

Hebrew:—Elements of Grammar, studied inductively from Genesis I-VII. Sight Reading from Genesis, with exegetical comment.

Text Book:—Harper's Introductory Hebrew Method and Hebrew Elements.

Greek:—New Testament Greek Grammar, with a brief reading from St. John.

New Testament Exegesis:—Pauline Epistles, Galatians, first and second Corrinthians, the Synoptic Gospel. Text Book assigned, and the books mentioned in our discipline.

HISTORICAL THEOLOGY

The History of the Bible, from the Creation to the Birth of Christ. Text Book, Blaikie's.

SYSTEMATIC THEOLOGY

Theology as a science, Theism, to Antropology, inclusive. Text Book, Miley's, Vol. I.

PRACTICAL THEOLOGY

Homeletics and Pastoral work, the study of famous preachers, their method and style, Sacred Oratory.

OLD TESTAMENT EXEGESIS

MIDDLE YEAR:

Hebrew poetry, critical reading of Selected Psalms. Major Prophets, reading Isaiah and Ezekiel, critical reading of Amos.

NEW TESTAMENT EXEGESIS

Pauline Epistles are read critically and exegetically, Life of Paul. Text Book, Conybeare and Hawson.

HISTORICAL THEOLOGY

From the Apostolic Age, to the Reformation. Text Book, short history of the Christian Church, Hurst.

SYSTEMATIC THEOLOGY

Anthropology to Eschatology, inclusive. Text Book, Miley's, Vol. II.

PRACTICAL THEOLOGY

Study of the principles of preaching, and the structure of sermons. Biblical Literature and English Bible constructive studies in the life of Christ, and Hymnology. Text Book, Life of Christ, Geikie.

OLD TESTAMENT THEOLOGY

SENIOR YEAR:

The Minor Prophets critically interpreted. Messianic Prophecies and their fulfillment.

NEW TESTAMENT EXEGESIS

Pauline Epistles concluded, critical reading of the Genera Epistles, and Revelation.

HISTORICAL THEOLOGY

From the Reformation to the Modern Church. Text Book, Fisher.

SYSTEMATIC THEOLOGY

Methodism and Armenianism, Review of Christology, Comparative Theology.

PRACTICAL THEOLOGY

Pastorial Theology, Lectures on Church Methods, Lectures on Liturgy, study of discipline of the A. M. E. Zion Church, Biblical Literature.

This curriculum obtains in both the English and full course, as follows:—Candidates for Bachelor of Divinity degree, take Greek and Hebrew, in Old and New Testament Exegesis respectively; candidates for Diploma take Rhetoric and Psychology, in lieu of Greek and Hebrew, with academic classes.

Special arrangements are made for students in the correspondence course.

N. B.—When it is not convenient for the correspondent students, to procure the books as prescribed in this course, the books as provided in the course of studies in our book of discipline will be an equivalent.
